MRS. DAVID H. BURR'S

French and English seminary for Young Ladies, corner
of E and 9th streets, Washington city.

THE location of this seminary is one of the most
desirable in the city, on account of its healthy
and airy position. The house is large and commodious, with ample grounds and other facilities for
amusement and recreation. The principal, so well
and favorably known in this city, and in New
York, from her long experience in teaching, hopes
to give entire astaffaction to all who may comide
their daughters to her care. She is a native of
France, and familiar with its language and literature, and conversant with the best and easiest modes
of imparting to her pupils a perfect knowledge of
that language, so that they can not only read and
write, but speak it fluently. She has secured able
asristants for various departments, so that all
branches of an English as well as French education
will be thoroughly taught. Pupils who reside in
the family have the peculiar advantages of hearing,
and conversing at all times in the French language,
and of perfecting themselves in the science of music,
being under the surveillance of an experienced
vacher. The dourse of instruction, besides the
sual elementary branches, includes all the higher
studies pursued in the most approved northern seminaries. The discipline is mild and affectionate, yet
decided, and its maintained by appeals to the affections and conscience of the pupil; it is designed, by a
proper development and cultivation of the better
qualities of the heart, to bind more affectionately the
pupil to her teacher, and by it to secure obedience.

As sound physical, moral, and intellectual improvement and cultive, are the great objects desired, it is
the aim of the teacher, and by it to secure obedience.

on the Winchester and Potomac railroad—are now

open for the reception of company.

This water is inferior to none in the State, as it This water is inferior to none in the State, as it holds in solution sulphureted hydrogen, iodine, and magnesia, implarting tone to the system, and acting as a powerful alterative, as numerous visiters can testify, having been visited for the last fifty years, and, had it not been for its contracted accommodations, must have been among the first watering places in the Union. For the last five years, the improvements have been increased so as to accommodate between two and three hundred visiters.

The proprietor has endeavored to put this watering place on a footing with the most fashionable and comfortable places of the sort, in a plain style, and will use every exertion in his power to make his visiters comfortable.

It is easy of access for all the Atlantic cities. Persons leaving Baltimore in the morning cars will arrive at the depot at 3 o'clock the same day, where a coach will be in readiness to take them immediately to the springs.

The proprietor feels thankful for the encouragement he has received from the public, and will use every exertion to merit a continuance of it, by making those comfortable who may give him a call.

town of Cumberland, on Saturday, the 12th day of
July next, a tract of land called "Tuesday's Work,'

This valuable tract of land is situated on George's

creek, about three and a half miles from Frostburg, adjoining the property of Wm. Ward, esc. It contains 655 acres more or less; the soil is very fertile and susceptible of a high state of improvement, and is believed to abound in exhaustless beds of stone coal. Its location in the heart of the coal region—its susceptibility of division into valuable farms, together with its proximity to the Lonaconing iron works, the Mount Savage iron works, the railroad of the Maryland Mining Company, and other extensive improvements now in progress in the county—render it a very desirable property to purchasers. Persons wishing to purchase can obtain any information respecting it from the trustee.

The tract will be divided and sold in parcels to suit purchasers. A plat of the land, &c., can be seen by calling on the subscriber.

The terms of sale, as prescribed by the decree, are one-third of the purchase money on the day of sale, the balance in two equal annual payments, the purchaser giving bond for the same, with security to be approved by the trustee. On the payment of the whole purchase money, the trustee will convey a title by a deed of bargain and sale.

DR. DYOTT'S ANTI-BILIOUS PILLS.
As a family medicine, a mild and gentle purgative, and purifier of the blood. The general use of these celebrated pills throughout the United States for these forty years past, and the strong recommendations they have acquired from all classes of our fellow-citizens, places them in a much more elevated situation in public estimation, than any other remedy which has heretofore been introduced.
The following are among the many diseases. For which Dr. Dyott's celebrated pills are so deservedly distinguished for curing. By their counteracting properties in removing the bile from the stomach, they prevent and cure the bilious fever; chills, or a gue and fever; spring and fall fevers; yellow fever; bilious cholic; pleurisy; dysentery; worms; bilious vomiting; sick and foul stomach.

By cleansing the bowels and stomach from all impurities, they restore the loss of appetite, remove fautiency, cure the headache, habitual contiveness, colds, coughs, asthma, epileptic fits, hypochondria, hysterical complaints, stranguary, gravel, &c.

By a general and copious use, they will be found very beneficial in curing the rheumatima and gout, lumbago or pains in the blood yield to their happy effects, whether proceeding from constitutional ailment, or from indiscreet intemperance.

These celebrated pills have been used to very great advantage in curing the dyspepsis, or indigestion, bronchitts, liver complaint, &c.

They are an infallible medicine for female complaints generally, and especially for removing those obstructions which are the source of their ailments at certain periods; they possess the eminent advantage over most other purgatives, that, while they operate gently, they produce neither costiveness, debility, or too great excitement.

Whenever there is a predisposition to receive disease from marsh effluvis, or from a too copious use of ardent spirits, or from a vitiated state of the bile, th

There are on the premises two dwelling-houses, a good spring-house, and other necessary out-buildings, including an excellent new frame barn two stories high, covering a space of 40 by 42 feet. The lower story is fitted for stabling, &c. The rest of the building is divided into threshing-floors and convenient apartments for securing the productions of the farm.

The farm will be soid together, or in two parts—one part containing 165 acres, with house, barn, &c.; the other 117; acres, with a new commodious two-story frame dwelling-house, with cellar, &c.

The terms will be one-fourth of the purchase money in hand. For the deferred payments a credit of one, two, and three years will be given, the purchaser giving his notes satisfactorily endorsed, bearing interest. The whole to be secured by a deed of trust on the property.
